

## About us

Founded with a vision to share the unique aspects of our island state, Tours around Tasmania has been helping guests discover iconic locations and unexpected adventures since 2015.

As a provider of premium and luxury experiences we value a professional and reliable approach. Starting at your initial enquiry, through the booking process to your tour, we guarantee your experience to be personalised and immersive. Our aim is for you to leave Tasmania with a deeper appreciation for our history, culture, artisan producers and of course our natural environment and some of the freshest air on the planet!

While we provide regular small group day tours to iconic locations across Tasmania, our speciality is curating bespoke private tours for couples and groups. We engage a large network of professional guides, including a range of subject matter experts such as geologists, ecologists, historians and award-winning photographers to ensure your Tasmanian experience is truly immersive. Locally owned and operated, we are able to coordinate other operators, such as boat cruises and helicopter or seaplane flights, to ensure your holiday runs smoothly. In order to ensure consistent high quality tours, we are highly selective when choosing which guides and operators we work with.

A premium tour needs to be complimented with comfortable vehicles. We operate a modern fleet of vehicles in a range of sizes up to our brand new 22 passenger Iveco Daily, first registered in 2022.

Proudly Tasmanian owned and operated, we are large enough to offer a range of tours guaranteed to cater for your niche interests while still small enough for the owners to be intimately involved in the organisation of each tour.

Rejuvenate, reflect and discover by booking one of our tours today.
